Setup sheet for grown-ups

1. Print the cards and cut along the dashed edges.
2. Hide each card in the spot shown below. Keep this sheet to yourself.
3. Put the prize and the treasure card at the **christmas tree**.
4. Hand Maya Clue 1 and let the hunt begin.

Christmas morning idea: make the Christmas tree the last spot, so the trail ends at the presents.

Card	Hide it at	Its answer
Clue 1	Hand it to Maya to start	Pillow
Clue 2	**Pillow**	Fridge
Clue 3	**Fridge**	Couch
Clue 4	**Couch**	Bookshelf
Clue 5	**Bookshelf**	Stockings
Clue 6	**Stockings**	Christmas tree

- **Scale:** 100% (also called "Actual size" or "Default"). Skip "Fit to page" so the cards stay full size.
- **Paper weight:** 65 lb (about 175 gsm) card stock works in most home printers, feels special, and nobody can peek through it. Plain paper is fine too.
- **Cutting:** cut along the dashed lines. A paper trimmer makes it a two-minute job.

If they get stuck, give a "warmer or colder" hint before giving the answer. Keep cards away from anything hot, high, or sharp.
